Kemper was then sent to the criminally insane unit of the Atascadero State Hospital. There, doctors determined that Kemper had paranoid schizophrenia — as well as a very impressive IQ. But despite the crimes he committed, Edmund Kemper only stayed in the hospital for a few years. On his 21st birthday in 1969, he was released.

Thats the point, you have just halved your capability not doubled it. If you do what you are suggesting then you have the same number of hulls that can do half the job of the ship they are replacing (across both roles) but, and this is the important bit, they can only do one job at a time, or at least can only do one job effectively.

What is the Difference Between Poison Oak and Poison Ivy? Poison oak is a relative of poison ivy. There are many similarities: Both plants contain the same toxic resin, urushiol in all parts of the plant (toxic to humans but harmless to animals). Both plants have three leaflets, white flowers in spring, and can grow as a vine or a shrub.
