**Oracle Application
Framework
Personalization
Guide**

Oracle E-Business Suite applications are currently shipped with Oracle's corporate Browser Look-and-Feel (BLAF), which supplies a rich set of components for web-based applications.

File Type PDF Oracle Application Framework

Although OA

Personalization

Framework provides you with the ability to change the look of a page by changing user interface (UI)

component properties, adding UI components, and so on, it does not allow you to create and apply an entirely new Look-and-Feel to an application.

Personalization and Extensions for OAF Pages Developer Guide

In OAF the page definitions are stored in JDR tables normally called MDS repository. In the standard application

File Type PDF Oracle Application Framework

sometimes customer wants some degree of changes in the display/functionality. OAF has a mechanism called Personalization to achieve this. Personalizations are also stored in MDS but a layer above the page definition. So it is upgrade safe.
