Community-Based Participatory Research on Issues Around ...

Lessons we are learning: using participatory action research to integrate palliative care, health promotion and public health through the DöBra research program in Sweden. Public health and health promotion approaches to end-of-life (EoL) research and care are still rare in Sweden. People remain generally ill-prepared for encounters with death and unable to advocate for quality EoL care; this may be reflected in Sweden's low scores for community engagement in the 2015

Lessons we are learning: using participatory action ...

Palliative care teams engaged in participatory research have noted that the protocol actually took less time and was less demanding than expected (15). A final challenge is that of funding. Acknowledging this issue, funding agencies have begun to request applications for projects involving community partners.
