The House Of Rumour Jake

The House of Rumour is Jake Arnott's tour of 20th century mad hatters, dubious scientists and spies. Reality and fiction blur as created characters mix with real people, and events have a habit of connecting to other events with tenuous links - "jonbar points", to use sci-fi vernacular. History is unpredictable.

The House of Rumour by Jake Arnott - Goodreads

I'm a big fan of Jake Arnott's books so far. In House of Rumour he deftly interweaves actual historical characters and events with fictional elements, filling in the gaps and drawing together some of the more tantalising threads that (just might) link Ian Fleming to Rudolph Hess via Aleister Crowley and pioneer rocket scientist and occultist Jack Parsons, all the way to Scientology founder L Ron Hubbard.

"Jake Arnott's newest novel, The House of Rumour, is a page-turner with exceptional style, depth, thought, camp, counter-history and intrigue. It's both sci-fi/fantasy pulp and an ambitiously epic work of cosmic proportions: a welcome paradox of a novel that boldly toys with the boundaries between high and low-brow art."
